ty-five pounds middlings, and the same quantity of corn meal. The result of this mixture is 300 pounds of stuff costing about \$6.45, or a fraction over two cents a pound; while Graham flour, made from the best wheat, cannot be sold now at less than three and one-half to four cents a pound. And yet this vile stuff is being swallowed by people in search of better health, when they would do about as well on a diet of hot white biscuit.

A DEFENSE OF THE SPARROWS.

A Man Who Ought to Know Insists That Their Services Are of the Greatest Value.

Robert B. Roosevelt in Forest and Stream.

I have a place in the country where we

cultivate the native birds and allow no gun

to be shot that will disturb them. They

about them, the nests that are built for

them, martins sail through the air,

woodpeckers climb the limbs of trees and

their chirps and squeals resound on every

side, and yet I can show you every variety

of noxious bug and harmful insect that ex-

ists. These birds never touch, but not a

cherry do they leave on my young trees,

hardly a strawberry or raspberry that

they do not destroy or deface. Better a

voiceless woods than one filled with the

discordant notes of such a useless crew.

Lay aside fancy and tradition and answer

it and right. The sparrow may eat

grain—but has not done so yet—but the

sparrows affirm that he will one of

these days. Let him. So do the black-

birds and redbirds and those sweet crea-

tures—the crows—that the admirers of our

native species continually calling upon

us to love and spare, and so, doubtless, do

almost all our birds. And what is the

value of a few kernels of wheat or corn in

comparison with lovely, luscious excheats,

or juicy, enticing Antwerps, or the big,

juicy juncos or triumph-de-gaunds? Let

the sparrow come, and if he will only eat

the worms, clear our orchards and save our

plums, he is welcome to fill his little crop

with all the grain he can stow away. I

will save an acre of wheat solely for the

sparrows that will drive out and keep out

the worms from my orchard. It would be

a saving of labor and infinitely more of

vexation of spirit.

Take Care of the Horses.

The Illinois Humane Society, through

an appeal issued for their committee, make

the following suggestions, which owners

of horses will serve their own interests by

attending to:

1. Shoes—If horses are sharp shod in

icy weather they will pull larger loads to

greater advantage. It is poor economy to

neglect the proper shoeing of horses, which

may thus be seriously injured.

2. Blankets, etc.—Horses should be pro-

tected by blankets or water proof covers

from rain or snow, while standing. The

cost of a blanket is very small, and its use

would repay the outlay many times.

Any woolen or other protection placed

under the pad or saddle, and extending

back over the hips, will be found very use-

ful, as protecting a weak part of the animal.

3. Clipping—The clipping of horses at

this season is considered to be, at least, im-

portant and by this society, in humane;

owners are respectfully urged to allow the

covering which nature has provided.

4. Check reins—Work horses, if at all,

should be checked very low; they can thus

pull to greater advantage, protect their

eyes from rain or snow, and are less liable

to stumble or fall on themselves. It will

be noticed that the city railway companies

have largely abandoned the use of check

reins.

5. Bits—It is prudent to work with the

hands, or otherwise, bits before placing

them in the horse's mouth.

The Trojan Brothers.

It is not a pleasant thing to see brothers

striving in antagonism for the same

office, as in the case of Walter A. Wood

and William A. Wood, the reaper men in

the Troy, New York district, where one is

the Republican and the other the Demo-

cratic candidate for Congress. One will

not doubt be elected, but both should remember

that a house divided against itself can-

not stand.

—The new orchestra of All Souls church under the leadership of Dr. M. A. Newman, commenced work yesterday. They will be still further increased in numbers, and promise to make the musical features of the service most attractive.

—Frank McGuire was just full enough of fighting his Saturday night to think that he could whip out every one in the Davis house. He was put under lock and key at Colley's, and this morning was sentenced to five days imprisonment.

—There was quite a commotion caused yesterday by the discovery of a large pool of clotted blood in the alleyway next to the postoffice. All sorts of guesses were made as to how the blood came there, but thus far no satisfactory explanation has been made.

—Rev. T. P. Sawin last night repeated by request his sermon on "Brambles in Politics." It was hard work for some of the hearers to keep their feet still, and had it been a week-day and in a hall, there would have been round after round of applause.

—Prof. R. G. Eccles, of Brooklyn, a leading political economist and a member of the American Social Science Association, is in the city to-day and is registered at the Myers house, en route for the North to fill some engagements to speak on the financial questions of the day.

—Rev. Mr. Maclean gave his people yesterday morning a plain talk on their duty toward the church, and urged them to work for the spiritual prosperity of the parish. He thought more of the members should be seen at the morning communion and the Friday evening service.

—Mr. John P. Williams and Mr. H. C. Hopkins, the managers of the Northwestern department of the Provident Savings Life Insurance Company, are in the city. Mr. Hopkins will remain for a week or so, looking after the interests of the company. It is arranged on a new plan which is meeting with great favor.

—Saturday evening about 7 o'clock as Mr. Henry Wians was proceeding homeward on Milton avenue, in company with his sister, Mrs. Ball, and her daughter, another buggy collided with his, and took off a hind wheel, breaking the axle close in the hub and letting him and his fellow travelers down into the road in a hurried manner. No one hurt by the spill.

—John Dowd was ugly drunk on Saturday night. Officer Drake was called in to the house to quell the disturbance which the father was creating, and found him armed with a revolver and a butcher knife while his wife and ten children were crouching together with fear. Dowd was locked up over Sunday, and this morning, as his wife refused to appear against him, he was released.

THE WEATHER.

The thermometer at 7 o'clock this morning stood at 43 degrees above and at 2 o'clock p. m., at 60 degrees above. Cloudy.

The indications to-day are for upper lake region and upper Mississippi valley, clear weather, followed by increasing cloudiness and possibly by rain areas, and warm southerly, generally shifting to colder northwest winds.

SMASHING BUGGIES.

This morning a horse belonging to David Lowery got tired of standing hitched in the rear of Chris Wright's shop, and breaking loose started on the run dragging a top buggy after him. He hadn't gone a rod before he changed the top buggy into an open one, and in front of Croft & Sherer's drug store he succeeded in colliding

with Dr. St. John's buggy, breaking that somewhat. The fast nag was then brought to a stand still.

BLOOD AND BULLETS.

A Serious Shooting Affray at Beloit Saturday Night.

There was a bloody fight at Beloit Saturday night in the West Side mill of the Rock River Paper Company. It appears that a man named William Lapointe in company with a fellow named James Sullivan, who has been hanging about Beloit with some tramps, went to the mill about 9 o'clock, and in some way got in a quarrel with Thomas Carey, who is the private watchman employed there. Lapointe and Sullivan were both under the influence of drink, and worthy threats and abuse finally ripened into blows. The watchman ordered them to leave the premises, but they refused to go. Some blows were exchanged by Lapointe and Carey, and after the round was stopped for a breathing spell, Carey again ordered the man to clear out, but he again refused, and again started for Carey. The latter then drew his revolver, and fired several shots in rapid succession. One ball struck Lapointe in the muscles of the left arm, another grazed the left side near the heart, making a slight wound, and a third entered the right lung. Even after being thus riddled Lapointe insisted on keeping up the fight, and Carey grabbing a hammer dealt him several blows on the head and face, knocking him down, and making several ugly looking scalp wounds. Lapointe now lives in a very critical condition though it is expected that he will recover. The tramp who was with him is under arrest. The affair has caused considerable excitement in the vicinity.

ARE YOU REGISTERED?

Every one who is entitled to a vote at the election two weeks from to-morrow should not fail to see to it that his name is placed on the registry. The Boards meet to-morrow and Wednesday to revise the lists, and this will be the last opportunity offered. There are some in the city who have resided here for years, and who have voted from time to time, whose names are not on the list. The Boards are unable to recall readily all the names which ought to be on the roll, and every voter should see to it personally. The following are the places of meeting:

First Ward—Washington Engine House.
Second Ward—Water Witch Engine House.
Third Ward—Next to Lawrence & Atwood's.
Fourth Ward—Fidelity's shop.
Fifth Ward—Northwestern freight depot.

HIND HEELS OF A HORSE.

Mr. Schermerhorn who drives a team for Mr. James Blair was badly kicked by a horse yesterday. He hitched up his nag, jumped into the wagon, and yelled "get up." The nag did "get up," but got up on the wrong end, sending his heels through the dashboard, staying it in to pieces, and barking Schermerhorn's shins quite badly. A number of ugly looking wounds were made, but fortunately no bones were broken. Schermerhorn tumbled out of the wagon, and the horse went down Milwaukee street on the jump, but was stopped before he could do any further damage.

THE GUNNER AND HIS GUN.

One of our leading dentists is likewise an enthusiastic sportsman. A week ago he went up to Lake Koshkonong to capture some ducks. As he sat in the stern of his boat his eagle eyes dropped upon a fine covey of ducks, and bringing to bear his pet fowling piece, he blazed away, and being greedy for game he fired both barrels in quick succession. The gun kicked at such a crowd of business, and kicked so energetically that gunner and gun were dumped into the lake. The gunner was fished out but the gun sank beneath the water to rise no more. It is still taking a rest at the bottom of Lake Koshkonong, and the dental sportsman is now busying himself in trying to keep the boys "mum" about his little accident.

ACCIDENT TO MR. HOLDREDGE.

Samuel Holdredge, Jr., was badly hurt Saturday afternoon. He was just jumping out of his buggy, and as he placed one foot upon the wheel, the horse started up a little, and he was thrown heavily, striking on his chest and breaking two of his ribs and otherwise inflicting injuries of a serious nature, which will keep him confined to his home for some weeks. Mr. Holdredge's many friends will greatly regret this misfortune, and in his sufferings he will receive their sympathy. It is expected that if inflammation does not ensue he will recover as rapidly as the nature of the injury will naturally permit.

Beyond the Reach of Human Skill. Is the power to restore the hair to bald heads when the bulbs at the roots are destroyed by age or disease; but there are doubtless many persons becoming bald, whose hair by careful attention might be restored to its original luxuriance and beauty. Parker's Hair Balsam is an elegant preparation, designed to meet the public want for a harmless hair dressing and restorative. It acts like magic, commencing at the very roots, removes Dandruff and all humors from the scalp, and never fails to restore gray or faded hair to the original color, and the soft, rich and glossy appearance of youth. By its occasional use falling of the hair is immediately checked, and a luxuriant and beautiful growth of young hair induced. The exquisite perfume and the purity of its composition are highly appreciated, and as it is not a dye and does not stain the skin or clothing, it is a growing favorite of the toilet table everywhere. Buy a bottle from your druggist A. J. Roberts, Janesville, Wis., and test its merits.
